

Are you ready to experience the land of the Bible without ever leaving home?

Our virtual-tour presentations were designed for you! Using a combination of Google Earth technology, drone video, on-the-ground video and countless photographs, Andy Cook can take your audience to the location of some of the Bible's most famous passages. If you can't get to Israel, these presentations will bring the "Israel-tour" experience to you!

We can use your church's audio-visual equipment or bring our rear-screen projection system to you. Our most effective events have featured four-day conferences, beginning on Sunday morning and continuing Sunday through Wednesday evenings. But flexibility is also a wonderful part of this teaching technique. We can do one-day events, weekend conferences, chapel events, prison services or single-service messages in churches.

The life-changing lessons from the land of the Bible can come to your church ... now!

All of our “Experience Israel Now” presentations could fall under the umbrella of “**Discovering the world Jesus knew**,” for all of our programs help people understand the context of Scripture. This particular presentation invites our listeners to stand on the Nazareth overlook and imagine all of the Bible history that played out in the Jezreel Valley. From the ministries of Elijah and Elisha to the oppressive presence of the Roman military machine, you’ll gain a brand-new understanding of the world Jesus knew as he grew up.

Application: Creates a desire for deeper Bible study and for understanding the context of Scripture

Length: This presentation can be compressed into a three-hour, one-day event, or be expanded into a complete weekend of lessons.

“**On this Rock**” is our most requested presentation. Listeners will discover why Matthew told us that Jesus was in the “region of Caesarea Philippi” when he said, “On this rock I will build my church, and the ‘Gates of Hades’ will not prevail against it.” This was the most evil corner of Israel!

Application: Mission, outreach, believers baptism

Length: Perfect for a Sunday-morning time slot, this presentation takes 35-40 minutes.

“**Facing Your Giants**” covers the famous story of the day David killed Goliath with a sling, a stone, and a giant-sized faith. But that’s only the first part of the story! The next time David came to the Valley of Elah, he had just suffered a panic attack in nearby Gath. How he regrouped in the caves of Adullam and found his faith again is a powerful lesson for all of us. Using amazing drone footage from one of the greatest examples of biblical geography to be found anywhere in the world, this presentation uses a lot of humor and audience participation, too!

Application: Overcoming fear, anxiety and stress

Length: 45-50 minutes

Want to take your audience to the cross?

Here are three powerful presentations that can do just that.

“**Selfishness only makes it worse**” explores the day when John and James asked to be on the “right and left” of Jesus as he came into his “kingdom.” Jericho is the setting for this encounter, and we’ll explore the collision of world views on display at this important crossroads.

Application: This presentation reminds listeners of the power of serving others, whether the application is for a marriage, friendship, business philosophy or church leadership.

Length: 45 minutes

“**Secrets from the Via Dolorosa**” is often called our most powerful presentation. Here’s a look at some of the key locations on the night Jesus was arrested, and the day he was crucified. By the time Andy Cook quotes Psalm 22 as this presentation concludes, you’ll never forget why Jesus made his desperate cry from the cross as he died. He was calling his followers back to the Text!

Application: Evangelism, Bible memory, Easter season preparation

Length: 45 minutes

“**Grace Resurrected**” is our powerful and unforgettable look at the resurrection of Jesus. This presentation visits the Garden Tomb in Jerusalem before returning to the shoreline of the Sea of Galilee. There we’ll unpack the powerful words of reconciliation and grace found in John 21. This message often works in tandem with “Secrets from the Via Dolorosa.”

Application: Grace, forgiveness, reconciliation, Easter season

Length: 45 minutes

Christmas will never be the same ...

Want to see how the land of the Bible makes an impact on the Christmas story? “**The King of Bethlehem**” will quickly and forever communicate why Matthew and Luke both began their accounts of the Christmas story by telling us that Herod was the king of Judea when Jesus was born. If you want your audience to recover the reason for the season, this is the presentation you’ll want!

Application: Bible context, a rejection of runaway materialism, preparation for the Christmas season

Length: 45 minutes

When Jesus met a woman at a well in dry Samaria, he offered her something special. In **“The Desperate Search for Living Water,”** you’ll discover why Jesus used such an unusual phrase as “living water,” and why she instantly knew what he was offering!

Application: Evangelism, missions, discipleship

Length: 30-45 minutes

“It’s a Sports Crazy New Testament” spends time in Caesarea Maritima and showcases several sports venues around the ancient Roman Empire. In a surprising twist, the last half of this presentation focuses on Paul’s first imprisonment and what he wrote in Romans 8:28. Is God *really* working all things together for good?

Application: Bible context, faith, comfort for the hurting

Length: 35-40 minutes

“The Other Side” will quickly show why the disciples were so hesitant to go to the “other side of the lake.” But once Jesus took them there, and after they saw how profoundly the Gerasene demoniac was changed, they had a brand-new understanding of the exciting work of outreach.

Application: Evangelism, missions

Length: 30 minutes

“Armageddon: Listening to the last warning Jesus gave us” spends time at Tel Megiddo and its famous valley. We’ll also visit Jerusalem’s Mount of Olives and see how the land around Jesus helped him explain the coming judgment for each individual. By the end of this presentation, you’ll want to have your life built upon the rock!

Application: Evangelism, missions, Bible context

Length: 45 minutes
